

Learn Jazz Trumpet

Lesson objective	Learn the melody of 'Simple blues'
Activity 1	Listen to the recording of the tune. Try to sing along with it as you get more familiar. Try and work it out on your instrument without reading the notation. By listening to the recording you are also getting a better idea of phrasing, articulation and style.

How to make great progress!

If you are learning some jazz standards, I strongly suggest that you NEVER read them.

The best way to learn a jazz standard and be able to play it anytime from memory for the rest of your life is to seek out a great recording of it.

This could be a singer or your favourite jazz musician.

Listen to the recording over and over again until you can sing along with it perfectly.

Now, try to play the melody on your instrument. I suggest you start with simple melodies.

Learning this way is great as you are also learning how to phrase, the articulation, vibrato and sound too.
